More importantly, industry players from China, Japan, South-east Asia, India, etc. treat AAE as their annual must-attended adult trade fair.

Must participated event for exploring Asia market

The organizer is inviting new suppliers, brands to join this annual event to explore the Asia market. Asia is currently realizing less than 5% of the market potential in the region but will develop very quickly if the opportunity is taken to avoid some of the mistakes made in Western markets. Countries or regions including China, Japan, Singapore, Malaysia, Thailand, Taiwan, India (especially Sexy Lingerie) are all having a steady development.
